Términos clave

La **escala de calificaciones** ofrece una manera única y uniforme de medir el crecimiento a través de los grados escolares y dominios. La escala de calificaciones se puede utilizar para comparar el crecimiento del estudiante a través de distintas evaluaciones de *i-Ready Diagnostic and Instruction*.

Los **niveles de grado** se utilizan para guiar la instrucción en la clase. Los niveles de grado están basados en el desempeño general de [redacted] así como en cada sub-prueba, los cuales describen el nivel óptimo de instrucción. Hay cuatro niveles de grado:

Spanish

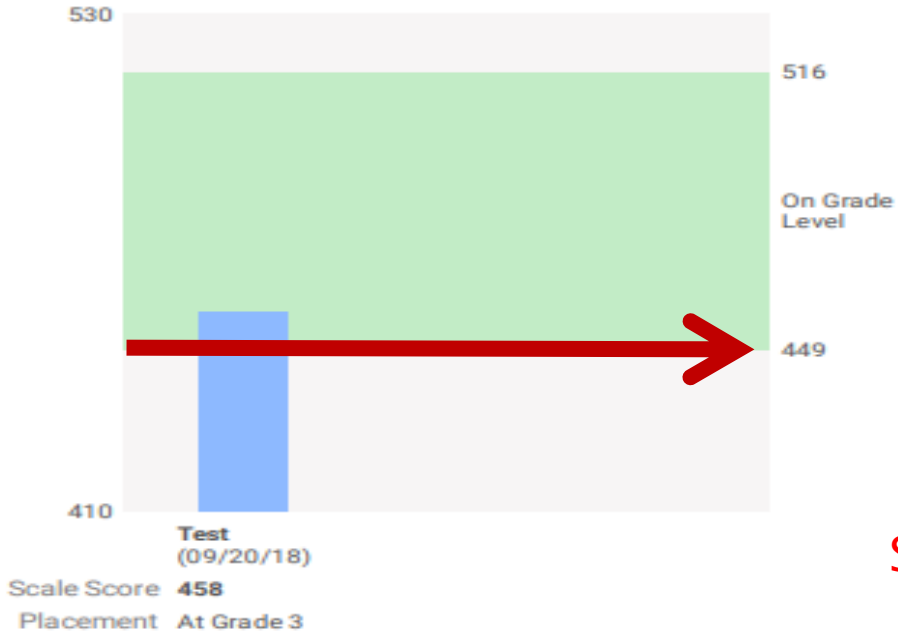

English

- Por encima del nivel de su grado
- A nivel de su grado
- En progreso al nivel de su grado
- Necesita mejorar

- Above Grade Level
- At Grade Level
- Approaching Grade Level
- Needs Improvement

Los **dominios fundamentales** no se evalúan en todos los niveles de grado. Estas sub-pruebas se toman según la calificación que el estudiante obtuvo en otros dominios. El nivel de grado "No evaluado" significa que el estudiante no tuvo que tomar esa sub-prueba. El nivel de grado "Calificación máxima" significa que el estudiante tomó la sub-prueba y obtuvo la calificación más alta.

Understanding Key Terms

Scale Scores provide a single, consistent way to measure growth across grade levels and domains. You can use a scale score to compare a student's growth on different administrations of *I-Ready Diagnostic and Instruction*.

Placement Levels are used to guide instruction in the classroom. Placement levels are based on a student's level of performance overall and on each subtest, and they describe the optimum instruction level. The four possible placement levels are:

- Above Grade Level
- At Grade Level
- Approaching Grade Level
- Needs Improvement
